<div id= flexconte><div>Because we have made
them dependent on us. Domesticated animals are animals that we took out of the wild to
train them to do something to benefit us. When we did that, we took their ability to care for
themselves away. They MUST be cared for. If they aren't getting food, water, shelter, and
proper medical care, then they die. From
the viewpoint of people who have animals to help farm, or for transportation, a person's
success and ability to get
work done is only as good as their animals are healthy.</div></div>
